Date and time of production	24 August 2026 04:18 London local time

1. What is this product?

Type	German law governed warrants
Term	The term of the product ends on the settlement date
Objectives (Terms that appear in bold in this section are described in more detail in the table(s) below.)	The product is designed to provide a return in the form of a cash payment following exercise by you or on the settlement date that will depend on the performance of the underlying. If, upon exercise or termination of the product, the reference price of the underlying has fallen to or below USD 150.00, the product will return zero. Returns from an investment in the product may be achieved by means of the purchase and subsequent resale of the product, or by letting it expire. Leverage: The product offers leveraged exposure to the performance of the underlying. This means that the payment you receive following exercise by you or on the settlement date increases on a magnified basis as the performance of the underlying increases, but you also bear a greater loss if the underlying performs negatively. Termination on the settlement date: Following exercise of the product by you or on the settlement date, whichever occurs earlier you will receive: - if the final reference price is above USD 150.00, a cash payment equal to (i) the difference between (x) the final reference price and (y) USD 150.00, multiplied by (ii) the entitlement and (iii) converted into EUR at the FX rate; or - if the final reference price is at or below USD 150.00, no payment and you will lose your investment. Under the product terms, certain dates specified below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive. The product terms also provide that if certain exceptional events occur (1) adjustments may be made to the product and/or (2) the product issuer may terminate the product early. These events are specified in the product terms and principally relate to the underlying, the product and the product issuer. The return (if any) you receive on such early termination is likely to be different from the scenarios described above and may be less than the amount you invested. You do not have any entitlement to a dividend from the underlying and you have no right to any further entitlement resulting from the underlying (e.g., voting rights). The product is available for trading on the listing venue(s) (see "5. How long should I hold it and can I take money out early?" below for more information on the listing venue(s)).

Direction	Call	Underlying currency	U.S. Dollar (USD)
Exercise style	American	Issue date	20 March 20

- they accept the risk that the issuer could fail to pay or perform its obligations under the product and they are able to bear a total loss of their investment; and
- they are willing to accept a level of risk to achieve potential returns that is consistent with the summary risk indicator shown below.

2. What are the risks and what could I get in return?

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 7 out of 7, which is the highest risk class. This rates the potential losses from future performance at a very high level, and poor market conditions are very unlikely to impact our capacity to pay you.

To the extent the currency of the country in which you purchase this product or your account currency differs from the product currency, please be aware of currency risk. You will receive payments in a different currency so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

For detailed information about all risks relating to the product please refer to the risk sections of the prospectus and any supplements thereto as specified in the section "7. Other relevant information" below.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period		1 day
Example Investment		EUR 10,000.00
Scenarios		If you exit after recommended holding period
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.	
Stress scenario	What you might get back after costs Percentage return (not annualised)	EUR 1,857 -81.43%
Unfavourable scenario	What you might get back after costs Percentage return (not annualised)	EUR 7,702 -22.98%
Moderate scenario	What you might get back after costs Percentage return (not annualised)	EUR 9,466 -5.34%
Favourable scenario	What you might get back after costs Percentage return (not annualised)	EUR 11,203 12.03%

The average returns shown in the above table are not annualised, which means they may not be comparable to the average returns shown in other key information documents.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

The scenarios shown represent possible outcome calculated based on simulations.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- You would get back the amount that you invested (0% annual return).
- EUR 10,000.00 is invested.

Costs over time	Scenarios		If you exit after recommended holding period	
	Total costs		EUR 520	
	Cost impact*		5.5%	
	*This illustrates the effect of costs over a holding period of less than one year. This percentage cannot be directly compared to the cost impact figures provided for other products.			
Composition of costs	One-off costs upon entry or exit		If you exit after the recommended holding period	
	Entry costs	5.2% of the amount you pay in when entering this investment. These costs are already included in the price you pay.	EUR 520	
	Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	Not Applicable	
	Different costs apply depending on the investment amount.			

5. How long should I hold it and can I take money out early?

Recommended holding period: 1 day

Sudden changes in the value of the product can occur frequently, accordingly the recommended holding period is 1 day or less. The value of the product should be monitored constantly.

The product reacts due to its leverage to small price movements of the underlying leading to potential profits or losses within unpredictable timeframes.

The product does not guarantee the possibility to disinvest other than by selling the product through the exchange. No fees or penalties will be charged by the issuer for any such transaction, however an execution fee might be chargeable by your broker if applicable.

Exchange listing	Börse Stuttgart	Price quotation	Units
Smallest tradable unit	1 unit		

In volatile or unusual market conditions, or in the event of technical faults/disruptions, the purchase and/or sale of the product can be temporarily hindered and/or suspended and may not be possible at all.

6. How can I complain?

Any complaint regarding the conduct of the person advising on, or selling, the product can be submitted directly to that person.

Any complaint regarding the product or the conduct of the manufacturer of this product can be submitted in writing at the following address:
