1. What is this product?

Type	German law governed warrants
Term	The term of the product ends on the settlement date
Objectives (Terms that appear in bold in this section are described in more detail in the table(s) below.)	The product is designed to provide a return in the form of a cash payment following exercise by you or on the settlement date that will depend on the performance of the underlying. If, upon exercise or termination of the product, the reference price of the underlying has fallen to or below USD 540.00, the product will return zero. Returns from an investment in the product may be achieved by means of the purchase and subsequent resale of the product, or by letting it expire. Leverage: The product offers leveraged exposure to the performance of the underlying. This means that the payment you receive following exercise by you or on the settlement date increases on a magnified basis as the performance of the underlying increases, but you also bear a greater loss if the underlying performs negatively. Termination on the settlement date: Following exercise of the product by you or on the settlement date, whichever occurs earlier you will receive: - if the final reference price is above USD 540.00, a cash payment equal to (i) the difference between (x) the final reference price and (y) USD 540.00, multiplied by (ii) the entitlement and (iii) converted into EUR at the FX rate; or - if the final reference price is at or below USD 540.00, no payment and you will lose your investment. Under the product terms, certain dates specified below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive. The product terms also provide that if certain exceptional events occur (1) adjustments may be made to the product and/or (2) the product issuer may terminate the product early. These events are specified in the product terms and principally relate to the underlying, the product and the product issuer. The return (if any) you receive on such early termination is likely to be different from the scenarios described above and may be less than the amount you invested. You do not have any entitlement to a dividend from the underlying and you have no right to any further entitlement resulting from the underlying (e.g., voting rights). The product is available for trading on the listing venue(s) (see "5. How long should I hold it and can I take money out early?" below for more information on the listing venue(s)).

4. What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- You would get back the amount that you invested (0% annual return).
- EUR 10,000.00 is invested.

Costs over time	Scenarios		If you exit after recommended holding period	
	Total costs		EUR 2,310	
	Cost impact*		30.0%	
	*This illustrates the effect of costs over a holding period of less than one year. This percentage cannot be directly compared to the cost impact figures provided for other products.			
Composition of costs	One-off costs upon entry or exit		If you exit after the recommended holding period	
	Entry costs	23.1% of the amount you pay in when entering this investment. These costs are already included in the price you pay.	EUR 2,310	
	Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	Not Applicable	

Different costs apply depending on the investment amount.

5. How long should I hold it and can I take money out early?

Recommended holding period: 1 day

Sudden changes in the value of the product can occur frequently, accordingly the recommended holding period is 1 day or less. The value of the product should be monitored constantly.

The product reacts due to its leverage to small price movements of the underlying leading to potential profits or losses within unpredictable timeframes.

The product does not guarantee the possibility to disinvest other than by selling the product through the exchange. No fees or penalties will be charged by the issuer for any such transaction, however an execution fee might be chargeable by your broker if applicable.

Exchange listing	Börse Stuttgart	Price quotation	Units
Smallest tradable unit	1 unit		

In volatile or unusual market conditions, or in the event of technical faults/disruptions, the purchase and/or sale of the product can be temporarily hindered and/or suspended and may not be possible at all.

6. How can I complain?

Any complaint regarding the conduct of the person advising on, or selling, the product can be submitted directly to that person.

Any complaint regarding the product or the conduct of the manufacturer of this product can be submitted in writing at the following address:
