1. What is this product?

Type	German law governed warrants
Term	The product does not have a fixed term, subject to exercise by you or termination by the product issuer
Objectives (Terms that appear in bold in this section are described in more detail in the table(s) below.)	The product is designed to provide a return in the form of a cash payment following exercise by you or termination by us that will depend on the performance of the underlying. The product has no fixed term. The product may terminate at any time as described below. If, upon termination of the product, the underlying has fallen to or below the stop loss level, the product will return less than your initial investment or even the minimum payment amount of EUR 0.001, which means you will effectively lose your initial investment. Returns from an investment in the product may be achieved by means of the purchase and subsequent resale of the product. Leverage: The product offers leveraged exposure to the performance of the underlying. This means that the payment you receive following exercise by you or termination by us increases on a magnified basis as the performance of the underlying increases, but you also bear a greater loss if the underlying performs negatively. Stop loss event: If the price of the underlying at any time during the term of the product is at or below the stop loss level, the product will terminate immediately and you will receive a cash amount equal to (A) (1) a price for the underlying based on the lowest price of the underlying published by the reference source during the three-hour period immediately following the stop loss event during which the underlying is calculated and published minus (2) the strike price, multiplied by (B) the entitlement, and converted into EUR at the FX rate, subject to a minimum of EUR 0.001. Exercise by you or termination by us: You may exercise the product on certain dates and subject to the notice periods set out in the product terms (see “7. Other Relevant Information” below for more information on where you can obtain the product terms). We may also terminate the product on certain dates and subject to the notice periods set out in the product terms. The exercise or termination, as the case may be, will be effective after the period of time indicated in the product terms. Unless a stop loss event has occurred, you will in both cases on the settlement date receive a cash amount equal to (1) (A) the reference price on the valuation date minus (B) the strike price on such date multiplied by (2) the entitlement, and converted into EUR at the FX rate, subject to a minimum of EUR 0.001. Following the issuance of the product, the stop loss level and the strike price will be adjusted for current market conditions and a financing rate. The financing rate is calculated and accrued daily based on an overnight floating rate plus a spread. Updated information on the levels of such components will be available from the product issuer and will be published on www.jpmmorgan-zertifikate.de. Under the product terms, certain dates specified below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive. The product terms also provide that if certain exceptional events occur (1) adjustments may be made to the product and/or (2) the product issuer may terminate the product early. These events are specified in the product terms and principally relate to the underlying, the product and the product issuer. The return (if any) you receive on such early termination is likely to be different from the scenarios described above and may be less than the amount you invested. The product is available for trading on the listing venue(s) (see “5. How long should I hold it and can I take money out early?” below for more information on the listing venue(s)).

5. How long should I hold it and can I take money out early?

Recommended holding period: 1 day

Sudden changes in the value of the product can occur frequently, accordingly the recommended holding period is 1 day or less. The value of the product should be monitored constantly.

The product reacts due to its leverage to small price movements of the underlying leading to potential profits or losses within unpredictable timeframes.

The product does not guarantee the possibility to disinvest other than by selling the product through the exchange. No fees or penalties will be charged by the issuer for any such transaction, however an execution fee might be chargeable by your broker if applicable.

In addition to selling the product through the exchange if the product is listed or off-exchange you may exercise the product on specific dates by the giving of an exercise notice to the issuer. If applicable, details regarding the delivery of an exercise notice and the amount you will receive on such early exercise are described in more detail under "1. What is this product?" above.

Exchange listing	Börse Stuttgart	Price quotation	Units
Smallest tradable unit	1 unit		

In volatile or unusual market conditions, or in the event of technical faults/disruptions, the purchase and/or sale of the product can be temporarily hindered and/or suspended and may not be possible at all.

6. How can I complain?

Any complaint regarding the conduct of the person advising on, or selling, the product can be submitted directly to that person.

Any complaint regarding the product or the conduct of the manufacturer of this product can be submitted in writing at the following address: J.P. Morgan SE, KID complaints, Complaints Management, TaunusTurm, Taunustor 1, 60310, Frankfurt am Main, Germany, by email to: kontakt.zertifikate@jpmorgan.com or at the following website: www.jpmorgan-key-information-documents.com.
