- they accept the risk that the issuer or guarantor could fail to pay or perform its obligations under the product and they are able to bear a total loss of their investment; and
- they are willing to accept a level of risk to achieve potential returns that is consistent with the summary risk indicator shown below.

2. What are the risks and what could I get in return?

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 7 out

We have assumed:

- You would get back the amount that you invested (0% annual return).
- EUR 10,000.00 is invested.

Costs over time

Scenarios		If you exit after recommended holding period
Total costs		EUR 3,589
Cost impact*		56.0%
*This illustrates the effect of costs over a holding period of less than one year. This percentage cannot be directly compared to the cost impact figures provided for other products.		
One-off costs upon entry or exit		If you exit after the recommended holding period
Entry costs	35.9% of the amount you pay in when entering this investment. These costs are already included in the price you pay.	EUR 3,589
